WELCOME TO ISES HARTPURY 2022
Succeed with Science: Performance, Practice & Positive Partnerships
10 - 12th August 2022

The ISES 2022 programme is made up of Plenaries **PL** (thought provoking summaries of current and future thinking), research presentations **RP** (describing recent research studies), keynotes **K** (overviews of recent research studies and their application within industry) and lightning talks **LT** (5 minute talks highlighting a significant research finding). Plenaries **PL** and keynotes **K** are live; we will also record one research session per day. We also hope you will join us for our LIVE panel discussions (**PA**) – these provide opportunities for you (and the rest of the audience to ask questions that will be put to the panel). Everything will be recorded by the end of the conference SO – if you miss something, you can listen to the recordings later.
